1. SKYPE FOR BUSINESS

2. OFFICE 365

3. AZURE

4. EXCHANGE

5. ACTIVE DIRECTORY

6. SYSTEM CENTER

FOR BUSINESSES THAT HAVE QUESTIONS LIKE:

- » How do we integrate Skype for business into our existing phones?
- » How hard is it to pull the remote members of a team together, and how do they collaborate?
- » How can we modernize our workplace, to allow people to work the way they want?
- » What is the best path to approach a Unified Communications solution?
- » How can we control compliance, security, user identity and access, as more applications move to the cloud?
- » Do we have access to real-time queue and statistics for our contact center or customer experience teams?
- » What are the best practices for plugging security vulnerabilities that could leave the enterprise open to attack?

NETWORKING AND SECURITY SOLUTIONS

» **End-to-End Networking**
